KVM MCA

MCA is a post graduate degree programme spread over four semesters to bridge the chasm between computer studies and applications. We started the course in the year 2001. The program is approved by AICTE and affiliated to A.P.J. Abdul Kalam Technological University, Kerala.

Excellent performance in MCA Degree examinations and good placement records are major achievements of MCA department. The main objective of the programme is to provide professional training in the area of computer applications and to develop computer professionals to meet the demand of the fast growing IT industry who excel in their profession through innovative ideas, knowledge and team work. The department imparts computer education to MCA students through class room lectures, seminars, group exercises, industry visits, projects and guest lectures by eminent personalities of the IT industry.

HIGHLIGHTS

Software to monitor students' attendance and academic performance.

Wi-fi and Internet facility made available throughout the campus for better teaching learning process.

Guest lectures by eminent personalities from various reputed institutions and industries.

Time table framed with provision for Value Added Programmes (VAP), seminar and library hours.

Preparation of proper lesson plan, notes on lesson, question bank, lab manuals well in advance.

Excellent placement, Skill and Personality development programs, IT club activities (Published IT news letter (PseudoCast) by students), Webinars and excellent FDP session in this pandemic situation

Current Student Project Domains - Machine Learning, Data Science Image Processing, Audio Signal Processing, Mobile App Development.

SCHOLARSHIPS

Merit scholarships for students with consistent and exceptional track record

University Result

2022 Passout 87% 2019 No Admission

2021 - Batch, 2022 - Batch Classes ongoing

Placement

80 % of the students of 2016 and 2017 batches were placed on various reputed IT companies in different positions.

70% Students of 2022 Passout Batch has already been placed.

MOU

- Speridian
- Pragmatics
- Jay's Academy
- Gis Axiom
- Telecom Skill Sector Centre (TSSC).

Programmes offered

- BTech Computer Science and Engineering (60 Seats)
- MBA (60 Seats)
- MCA 2 year (60 Seats)

CHAIRMAN'S MESSAGE

Another academic is round the corner and along with it arise the need for making new resolutions and practices that ensure the safety of students entrusted to our care. We must protect the essentials of life: our air, biodiversity, soils and water, so that they can continue to provide us with the services on which we rely. We must repair the damage done to our natural environment by restoring natural connections that have been broken. We must improve the quality and diversity of our environments, so that they are better able to respond to future pressures. We should set our sights on a vision that inspires us to act now and in the longer term so that our essential natural assets will be contributing fully to robust and resilient ecosystems, providing a wide range of goods and services so that increasing numbers of people enjoy benefits from a healthier natural environment.

Engineering Technology is a profession in which the knowledge of mathematics and natural sciences gained by higher education, experience and practice is devoted primarily to the implementation and extension of existing technology for the benefit of humanity. Here the students gain practice in product improvement, manufacture, construction and other engineering operational functions. The programs are designed to meet the growing needs created by the technology revolution for college educated problem solvers who work together as a team.

The K V M group of institutions has an effective and functional anti ragging squad consisting of the various heads of the different institutions, government officials, teachers and student representatives. This squad is very active throughout the year, so that unnecessary harassment in the name of ragging does not deter the students from their studies. A congenial and stress free environment is essential for students taking professional courses: hence all precautions are taken by the management to ensure that the students are not emotionally or physically harassed in the name of ragging. The Squad in the campus conducts surprise visits to the hostel and classes to keep the offenders out of making trouble. The Anti Ragging Cell accepts all complaints so that offences are redressed in prompt manner.

The Placement Cell in the campus accepts applications from students who need training in personality development, leadership and life skills and communication skills. On entry the students are provided with orientation sessions in language skills, good manners and discipline and at exit they are prepared to face interviews prior to placement. All the students of the colleges are placed in prestigious institutions in the campus placement sessions organized every year.

So the students entrusted with us have a great responsibility ahead of them. They should utilize every opportunity offered to them to collect knowledge with sincerity and perseverance so that they become capable of making a creditable contribution to the society they serve, through team spirit that leads to great achievements.

Dr. V V Pyarelal
Chairman

Principal's Message

Welcome to KVM College of Engineering and IT. As an educator, I am an avid supporter of effective and innovative professional development that encourages my teachers and students to be reflective and to continuously examine our practice to provide quality teaching and learning for each student. My role as Principal is to keep up with latest trends and research and be an active partner in professional and personal development of this institution. We are aware of the need for placement training from their early stages of education . This way we ensure that our students gain thinking skills, analytical frameworks, interpersonal and communication skill which will be advantageous to them in the future. We conduct as well as facilitate our faculty Development programmes and keep themselves updated with recent trends and technologies. Thus , we have eminent faculty members and are supported by excellent facilities such as library with good collection of books and journals, hostel facilities,college bus transportation facilities and so on.

I look forward to welcoming you to KVM College of Engineering and it

VISION

To be the Desired Destination for Education and Research in Technical & Management Stream.

MISSION

Providing quality education for students to make them competent and confident to succeed in professional practice and advanced learning

Strengthen the Educational Social Responsibilities (ESR) of the Institution.

Infusing the culture of ethical practices to be followed in Technical & Management profession.

OBJECTIVES

To maintain the teaching-learning process innovative, interactive and in-depth and to ensure an effective relationship between the curricular content and practical applications.

To provide excellent academic ambience to the students and to groom their soft and software skills.

To make the students agile with latest technology trends.

Admissions - MCA Programme

KVM College of Engineering & IT invites applications to its MCA (2 Year)

Total Intake : 60 seats

Date of issue of application forms : 01/01/2023

ELIGIBILITY

(Tentative date)

MCA (2 Year)

Passed B.C.A/ B.Sc. (Computer Science) / B.Sc. (IT) / B.E. (CSE)/ B.Tech.(CSE) / B.E. (IT) / B.Tech. (IT) or equivalent Degree.ORPassed any graduation degree (e.g.: B.E. / B.Tech. / B.Sc / B.Com. /B.A./ B. Voc./ etc.,) preferably with Mathematics at 10+2 level or at Graduation level Obtained at least 50% marks (45% marks in case of candidates belonging to reserved category) in the qualifying examination.(for students having no Mathematics background compulsory bridge course will be framed by the respective University/ Institution and additional bridge courses related to computer subjects as per the norms of the concerned University).

Candidates must qualify LBS ENTRANCE EXAMINATION conducted by competent authority as per the rules and regulations of APJAKTU/AICTE/Govt.

Selection

The selection of candidates is purely based on merit. Admission to the MCA programme is determined by the scores obtained by the candidate in the entrance test.

NRI Seats-15% of total seats -9 seats.

How to Apply

Students can apply Online from www.kvmce.in and the filled application form can be downloaded from the above site.

*Mode of payment Online Only
